RECOGNIZING DR. ERICK HUECK OF MIAMI SENIOR HIGH SCHOOL

(Ms. ROS-LEHTINEN asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Ms. ROS-LEHTINEN. Mr. Speaker, I rise to recognize an outstanding educator in my south Florida Congressional District, Dr. Erick Hueck, a chemistry teacher at Miami Senior High School. Dr. Hueck has been an accomplished teacher for more than 25 years, and he has the awards to prove it, including the Miami-Dade Teacher of the Year Award and the Governor's Teacher of the Year Award, among many others.

But more than these accolades, Mr. Speaker, Dr. Hueck is known to his students as a mentor and a role model, someone to whom they can come for both academic and life wisdom and who is making learning and science fun.

Dr. Hueck is a positive influence, giving his students the knowledge, the confidence, and the opportunity to follow their dreams.

Thank you, Dr. Hueck. We are all so very proud of you.

Go Stingarees.

BIPARTISANSHIP

(Ms. KELLY of Illinois asked and was given permission to address the House for 1 minute.)

Ms. KELLY of Illinois. Mr. Speaker, American families expect us to work hard to keep them safe. It is our job to work together in addressing their national security concerns, not to diminish our government's standing for political sport.

In 2 short months, this Congress has allowed party extremists to push us to the brink of having no Homeland Security funding, and now we must deal with the dynamic created by misguided Senators whose attempts to undermine the President on Iran have set a dangerous precedent that compromises the authority of future Presidents to negotiate on matters of foreign and national security policy.

I ask my colleagues: What are we doing? We can't cater to political extremes here at home and protect American families from real extremist threats abroad. Let's move beyond the politics that divide us and commit to working with the President to ensure that Iran does not obtain a nuclear weapon. The Illinois families I represent deserve it, and the American people demand it.

HONORING THE LIFE OF JEFFREY BUCK, LAWRENCE TOWNSHIP VOLUNTEER FIREFIGHTER

(Mr. THOMPSON of Pennsylvania asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. THOMPSON of Pennsylvania. Mr. Speaker, I rise today to honor the life of 18-year-old Lawrence Township volunteer firefighter Jeffrey Buck.

On March 3, Jeff was battling a house fire in Clearfield, Pennsylvania, when the porch roof collapsed on him and two fellow firefighters. For the next 6 days, Jeff was in critical condition, on and off sedation, and on March 9, Jeff succumbed to his injuries.

Mr. Speaker, it is tragedies like this that remind us how selflessly these brave volunteers act in order to protect their neighbors and our communities.

This is a sad time for Clearfield and the entire Commonwealth of Pennsylvania. On Friday afternoon, I attended the memorial service for Mr. Buck in Clearfield, and it was truly remarkable to see the entire community come together and unite in the wake of this terrible tragedy.

I ask my colleagues to join me in offering their prayers and deepest sympathies to Jeff's family, friends, and fellow first responders.

HONORING MALCOLM JAMES "JIMMY" KEEP, VETERAN OF WORLD WAR II

(Mr. COHEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COHEN. Mr. Speaker, I rise today to honor Malcolm James "Jimmy" Keep, a lifelong Memphian and a veteran of World War II who

fought bravely against Japanese forces in Guam, Saipan, and Iwo Jima. Keep, now 88 years of age, served with the 4th Marine Division after joining the Marines at age 17 in 1943.

Tomorrow, Mr. Keep and his son, Mickey, will travel to Iwo Jima, with the help of a Memphis-based nonprofit organization called Forever Young Senior Veterans, to join 70 other Marine veterans for a 70th anniversary gathering.

Jimmy Keep was assigned to reconnaissance duty early in his career and recalls fighting on Saipan as the bloodiest thing he had ever seen. He came under enemy fire from all sides on Iwo Jima when his amphibious tank was disabled, causing him and his partner, Charlie, to evacuate on foot. The two escaped unharmed, earning them the nickname "rain-walkers." If they could survive that kind of heavy fire, they could surely walk through rain without getting wet.

On Iwo Jima, Keep cleared out huge tunnels that were used by the enemy to launch attacks on the Marines, and he helped carry a fellow marine who was injured back to the beach. He told him: "You're getting off this rock. I'll trade places with you."

Jimmy Keep is a true hero. I ask all my colleagues to join me in honoring Malcolm James "Jimmy" Keep for his service and bravery as a marine with the 4th Marine Division during the Pacific campaigns in World War II. He will have the Memphis Grizzlies flag when he gets there at Iwo Jima, and that will be part of his contribution to Memphis.

CONGRATULATING THE OAK GROVE MIDDLE SCHOOL ROBOTICS TEAM

(Mr. PAULSEN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAULSEN. Mr. Speaker, I rise to congratulate the robotics team at Bloomington's Oak Grove Middle School, the Typhoons, for taking first place in the Minnesota First Tech Challenge State Championships last month. This is the first year that the Oak Grove team had the opportunity to compete in State competition, but they still managed to beat out 47 other teams for first place. The team is now qualified to compete in the upcoming North Super Regional Championships coming up in Des Moines.

Mr. Speaker, as our economy continues to be driven by advancements in new technologies, it is important that our youth and young people have the opportunity to learn and explore in the science, math, technology, and engineering fields.

Robotics clubs and competitions bring out the best of students' imagination, ingenuity, and skill. They inspire students to pursue educational opportunities that will help them compete for the jobs of tomorrow. That is
